

ELECTRIC & GAS INDUSTRIES ASSOCIATION

Bringing Energy Efficiency Home . . .

HIRING THE RIGHT CONTRACTOR GIVES YOU PEACE OF MIND

There are several steps to insuring the home improvement job you need gets done right. You've already decided what you need done; now you need to hire a licensed contractor you can count on. EGIA has made that step very simple.

The Electric & Gas Industries Association is a non-profit organization dedicated to advancing energy efficient home improvements. We recognize what a daunting task it is for many homeowners to select a qualified contractor for your critical home improvements. To assist homeowners and assure that only screened contractors are eligible to participate in EGIA sponsored activities, such as our industry leading National Energy Efficiency Financing Program, we established the "Approved Contractor" designation. Only the most qualified contractors will meet the required screening criteria and become an EGIA Approved Contractor.

A.B.C. HOME IMPROVEMENTS

Is A Distinguished Member Of EGIA And Is Recognized As An APPROVED CONTRACTOR.

To attain this Approved Contractor status, Home Improvement Contractors must satisfactorily pass a screening process and review in the following areas:

- Verification of Valid Contractor License
- Satisfactory Dun & Bradstreet Check
- Satisfactory Credit Check
- Verification Of Solid Business Financials
- Trade Reference Check & Verification

Now more than ever, upgrading your home with more energy efficient measures is a wise investment. And finding the right contractor can give you the peace of mind you need.

Should you have any questions regarding the EGIA "**Approved Contractor**" designation, please contact EGIA at 1-866-367-3442.

Executive Director
Electric & Gas Industries Association

EGIA Is A 75-Year-Old Non-Profit Organization Dedicated To Advancing Energy Efficient Home Improvements. While All Of Our Program Approved Contractors Have Been Screened, Homeowners Are Advised To Check On The Current Status Of A Contractor's License And Insurance. EGIA Also Does Not Assume Responsibility For The Quality Of Workmanship, Materials Or Pricing.
